

Mohid Hameed

Full-Stack Software Engineer · React · Node.js · Python · React Native · TypeScript
Ada, Michigan | +1 (616) 315-8147 | mr.mohid.hameed@gmail.com | [Portfolio](#) | [Linkedin](#) | [Github](#)

SUMMARY

Full-Stack Software Engineer with 3+ years of experience building dynamic web applications and scalable backend services. Skilled in JavaScript, React.js, HTML/CSS, and Node.js with experience writing secure REST APIs and optimizing performance. Collaborated cross-functionally with designers and QA to deliver user-friendly solutions and comfortable using Git for version control. Eager to learn and contribute in a fast-paced startup environment.

WORK EXPERIENCE

Octek | *Full-Stack Software Engineer*

Jan 2025 - Jan 2026

- Maintained and enhanced the Akute Health EHR and practice management platform using React.js, Node.js, TypeScript, HTML/CSS, reducing page load times and improving user satisfaction.
- Managed and improved the hospital/clinic portal using Node.js and PostgreSQL, streamlining patient-record access and scheduling workflows, which cut manual entry steps.
- Built secure RESTful APIs with Node.js and improved database performance using PostgreSQL for better system reliability.
- Collaborated with designers, QA engineers, and product managers using Git and clear communication to deliver stable, user-friendly features, which lowered post-release bugs and increased user satisfaction.

Codenax | *Application Developer*

Aug 2022 - Jan 2025

- Built and maintained cross-platform mobile applications with React Native using Git for version control, integrating OpenAI APIs for AI features and using Firebase for backend services, resulting in a seamless user experience on both iOS and Android.
- Implemented advanced navigation flows with React Navigation, animations with Lottie, and offline storage via AsyncStorage, improving user engagement and enabling app use without an internet connection.
- Utilized JavaScript-based Redux for state management, Axios for API calls, and Supabase and Firebase for data storage and authentication, streamlining data flow and reducing development time.
- Collaborated with the development team to test, debug, and optimize app performance on Android and iOS using Android Studio and Xcode Instruments, reducing launch time and improving overall stability.

PROJECT

Patient tracking and clinic management system | *Octek*

- Worked full-time on the patient tracking and clinic management system, developing frontend and backend features for scheduling, reporting, and clinical data management.

Standalone backend project | *Octek*

- Standalone backend project – Complete backend implementation in Go (GoLang).

Major project with a Saudi Arabian company | *Octek*

- Major project with a Saudi Arabian company – Full-stack development using Next.js (frontend) and Spring Boot (backend).

Izzy AI | *Codenax*

- Built Izzy AI, a mobile app providing personalized career guidance with features like career path exploration, expert Q&A, and tailored content – developed end to end using React Native for the frontend and FastAPI (Python) with Supabase for the backend and database, optimized for performance, security, and scalability, and successfully launched on Google Play.

GastroDev | *Codenax*

- Built GastroDev, a MERN stack and Next.js restaurant management platform with staff management, training, and invoicing - a secure, scalable SaaS solution enhancing team efficiency and operations.

Multiple small projects | *Codenax*

- Multiple small projects like violin tuning app and delivery apps.

EDUCATION

University Of Central Punjab | *BS, Computer Science (GPA: 3.73)*

Lahore, Punjab Oct 2020 - Aug 2024

SKILLS & INTERESTS

- **Programming Languages:** JavaScript, Python, GoLang
- **Frontend Development:** React.js, React Native, Next.js, HTML/CSS
- **Backend Development:** Node.js, REST APIs, Backend System Development, System Design, Architecture design
- **Databases:** SQL, PostgreSQL, Supabase
- **DevOps & Tools:** Git, AWS
- **AI & ML:** OpenAI, LangChain, LLMs, AI Chatbots
- **Soft Skills:** Problem-Solving, Team Collaboration, Clear Communication, Adaptability
